

OUR VALUES

1

Claim Excellence

Mediocrity, eat our dust.

2

Embrace Curiosity

We believe growth comes from asking the right questions, not from having all the answers.

3

Say “Thank You” Seven Times

Our founder never asked for more support until she said thank you seven times. Gratitude is part of everything we do.

4

Laugh and Take Care

The work we do is rigorous and sometimes difficult; we look for positive ways to blow off steam and spend time outside of work doing things that fuel us.

5

Many voices, one mission

We believe that diverse perspectives and backgrounds best position us to work together for our common cause: to serve our students to our highest capacity.

6

Dare to lead

If not me, then who? We believe in showing up as change-makers, leading from every seat.

7

Be Real

To promote our professional growth and connection to one another, we're committed to cultivating the courage it takes to give and receive thoughtful feedback.

8

Connect and collaborate

We know a rising tide lifts all boats – so we collaborate to create what is best for the whole.
